Pedigree Diagram for Gustav Pinter

Printed March 2024

On the page below you will find a pedigree diagram for Gustav Pinter. Gustav is one of the children of Jacob Pinter. By starting with Gustav, you can see both Jacob and Justina Croisant Pinter's heritage going back 4 generations. Trees for Gustav's siblings would show the same heritage.

A pedigree diagram is usually drawn horizontally and shows the individual, his/her parents, grandparents, greatgrandparents, etc, of an individual going back in time as the diagram is viewed from left to right. This tree diagram shows the direct line for Gustav, and hence his siblings too,

As you can imagine, it is not possible to print an entire family tree for any one person since there are so many children, brothers, and sisters involved. The resulting printed trees would include hundreds of printed pages. Plus, there would be lots of duplications.

So, I am showing only some basic tree branches here to help us better understand our heritage.
